Contents Volume 125, 1996

Special Volume: Carboniferous–Permian Late Glacial and Postglacial Environments. Edited by I.P. Martini

Preface 1

Petrographic and diagenetic signatures of climatic change in peri- and postglacial Karoo Sediments of SW Tanzania
B. Diekmann and H. Wopfner 5

Imprints of post-glacial climates and palaeogeography in the detrital clay mineral assemblages of an Upper Permian fluviolacustrine Gondwana deposit from northern Malawi
K. Yemane, G. Kahr and K. Kelts 27

Isotope geochemistry of Upper Permian early diagenetic calcite concretions: Implications for Late Permian waters and surface temperatures in continental Gondwana
K. Yemane and K. Kelts 51

Permian phytogeography in Gondwana
N.R. Cúneo 75

Persistence of Late Carboniferous tropical vegetation during glacially driven climatic and sea-level fluctuations
W.A. DiMichele, H.W. Pfefferkorn and T.L. Phillips 105

Controls on Early Permian shelf deglaciation on the Karoo Basin of South Africa
J.N.J. Visser 129

The Dwyka Group in the northern part of Kwazulu/Natal, South Africa: sedimentation during late Palaeozoic deglaciation
V. von Brunn 141

Patterns of late Palaeozoic deglaciation in the Paraná Basin, Brazil
P.R. dos Santos, A.C. Rocha-Campos, J.R. Canuto 165

Problems of a Late Palaeozoic glaciation in Australia and subsequent climate in the Permian
J.M. Dickins 185

Comparative petrological analysis between the Permian coals of India and Western Australia: paleoenvironments and thermal history
H.K. Mishra 199

Depositional framework of Permian coal-bearing strata, southern Victoria Land, Antarctica
J.L. Isbell and N.R. Cúneo 217
